E-PAPER DISPLAY SPECIFICATIONS

INDOOR

Ultra slimline and lightweight indoor e-paper displays are designed to be installed on stands, walls or within a third party enclosure. With industry leading power efficiency, the displays can run on batteries longer than any other display technology. Wirelessly connected to our cloud-based Content Management System, they can be positioned anywhere and moved from location to location with ease.

FEATURES AT A GLANCE

E-paper display

Sunlight readable

High contrast HD E Ink displays with night time LED illumination

Low power

Market leading power, processing and data performance

Battery powered

Runs on batteries longer than any other display technology

Fully rechargeable

Solar powered outside and mains rechargeable when used indoors

Wireless connectivity

Optimized data compression and transmission

Display options

Standard and custom display configurations

Seamless refresh

Local content rendering and partial display update

Fully protected

Ruggedized IP67 & IK09 rated outdoor displays

Easy installation

Standalone 'off-the-grid' display, installed in hours

Complete control

Bespoke cloud based advanced management system

Instant integration

Simple integration supporting major open standards

Eco-friendly

Sustainable and environmentally friendly technology

Cloud-based Content Management System

Easy onboarding

Register and activate new displays using the management platform in just a few clicks

Instant integration

Offers simple integration with GTFS, GTFS RT, SIRI and other data standards

Complete freedom

The ultimate flexibility to customize content exactly how you want

Make it your own

Create and customize your own layouts, apps and widgets using javascript NodeJS

When it suits you

Publish content instantly or schedule for certain times

Reduce perceived wait times

Share local news and information or generate advertising revenue

Have absolute control

Manage every aspect of every display, at any time, from any device

Stay protected

Receive notification in the event of attempted vandalism
